Summary

I am a dedicated Front-End Developer aiming to ensure user responsive web applications and websites. I possess a solid understanding of HTML, CSS, JavaScript, and additional frameworks like React.js and Bootstrap. I have nose for details enhancing the user interface, design and the overall efficiency of the application across all mobile devices. Through entire design processes I have encompassed, I have a strong focus on the aesthetics of the site and its usability. Today I am good at understanding a problem, debugging it and working with coworkers on productive output. I am also ready to work on increasing the level of professional skills and take part in creating more projects in the future
